INTRODUCTION

The need for information about employment success after students have completed or left educational programs designed to prepare them for employment has been recognized for some time. Follow-up studies of these former students and their employers provide data that enable the determination of whether or not former students are employed in the occupation for which they were trained as well as salary information and also enable the assessment of the adequacy of job preparation training programs in providing employees to meet employer needs.

The Federal monies for follow-up activities is specified in Section 112 (b)(1)(B) of Public Law 94-482 that calls for an evaluation by using data collected, by statistical valid sampling procedures, of each state program according to the extent to which program completers and leavers find employment in occupations related to their training.

The National Center for Education Statistics has included student follow-up reporting as a component in the annual Vocational Education Data System (VEDS). While responses to follow-up are voluntary, the State is mandated to conduct follow-up activities and submit information to VEDS.

The 1983-84 student follow-up involved a sample of approximately 20% of the local education agencies offering programs to prepare students for employment. The sampling plan was developed according to NCES parameters in a manner to maximize representation in terms of students, variety and number of programs, and geographic location of LEA's over a five year period.

METHOD

Subjects. The subjects of Phase 1, the base data survey, consisted of 20% sample of secondary schools (73) and three merged area school administrators who had students who had completed or left educational programs that prepare students for employment during the 1982-83 school year (see Appendix A). The subjects for Phase 2, the student follow-up, consisted of 6,616 students reported in the base data survey as completing or leaving the educational programs.

Materials. The materials for Phase 1 consisted of a base data collection form for secondary schools (CE-7s) and merged area schools/community colleges (CE-4s), instructions, and cover letters (see Appendix B). Phase 2 materials consisted of cover letters to students and the student follow-up survey instrument (see Appendix C).

Procedure. Phase 1, base data survey, consisted of developing a roster of 1982-83 completers and leavers of educational programs that prepare students for employment, involved orienting the administrator and conducting the base data survey within the designated local education agencies to obtain students' names, addresses, and characteristics (completion status, sex, race/ethnic, handicapped, limited English proficiency, disadvantaged, and CETA) according to program taxonomy number and program title.

During the vocational education reimbursement cycle for FY 83 (between April and October 1983), the base data summary package was mailed to each selected secondary school and merged area school administrator. Each contact person was requested to provide information regarding former students who completed or left educational programs that prepared them for employment. This information was requested by specific C.I.P. number, name and mailing address of each former student, program completion status, sex, racial/ethnic characteristics, handicapped, limited English proficiency, disadvantaged, CETA, and type of award (postsecondary only). Responses were received from 61 secondary and three postsecondary schools who had programs operating in FY 83. The forms were screened by the Department of Public Instruction personnel in order to edit the data. By the conclusion of Phase 1, information was obtained from 4,212 former students, of which some were duplicates.

Phase 2 involved surveying the students identified in Phase 1. Phase 2 was conducted between April 3, 1984 and August 22, 1984.

Survey forms from the Department of Public Instruction (DPI) were mailed to the former students identified in Phase 1 with instructions to complete the mailer (survey) and return it to DPI. One initial mailing (April 3, 1984) and two follow-up mailings to nonresponders (April 16, 1984 and May 4, 1984) were made in order to boost the number of responders. No telephone follow-up was made, a departure from previous surveys. Duplicate names were identified by editing the file and the returns, and as a result, the final unduplicated file consisted of 4,074 students.

The employers of the respondents from Phase 2 who indicated they were employed in a field related to their training were selected to participate in Phase 3 (the employer follow-up).

On May 22, 1984 employer survey questionnaires were sent to 486 employers whose names and addresses were provided by the students participating in Phase 2 (see Appendix C). Two follow-up mailings to nonresponders were conducted on June 15, 1984 and July 3, 1984. As Phase 2 information continued to be received, additional names and mailings were made for Phase 3. The final number of employers surveyed totaled 548.

Phases 2 and 3 were completed by August 22, 1984.

Editing and file clean-up was completed in September 1984. By the completion of the survey, student responses were received from 1,338 of the 4,074 students and 486 of the 548 employers.

RESULTS AND DISCUSSION

STUDENT FOLLOW-UP

A total of 1,338 or 32.8% of the survey questionnaires pertaining to the final 4,074 unduplicated list of 1982-83 student completers and leavers were returned with a response to at least one item on the Student Follow-up Survey form. The first mailing resulted in the 8.2% responses. The second mailing yielded an additional 12.8% response, and the third mailing resulted in 11.9% response.

The following data summarize the responses and non-responses to the survey according to relevant factors:

Factor	Total		Secondary		Postsecondary	
	No.	Percent	No.	Percent	No.	Percent
Total	4074	100.0	1830	100.0	2214	100.0
Responded to first mailing	332	8.2	108	5.9	224	10.0
Responded to second mailing	523	12.8	229	12.5	294	13.1
Responded to third mailing	483	11.9	183	10.0	300	13.4
Subtotals	1338	32.8	520	28.4	818	36.9
Non-Responders	2736	67.2	1310	71.6	1426	63.6

The data below summarize the status of the 4,074 students who were surveyed in the Student Follow-up. It is quite evident from the table that for program completers 44.0% of the respondents were employed in an occupation related to their training as opposed to 46.3% for program leavers. Completers employed in an occupation unrelated to their training were 17.6% of the respondents compared to 17.5% for leavers. Overall, 61.6% of the completers compared to 63.8% for the leavers were employed in some occupation. The employment percentage increases to 64.2% for completers and 65.9% for leavers if military employment for 2.6% of respondent completers and 2.2% of respondent leavers is included in overall employment. Continuing education was pursued by 24.0% of the completer respondents and 15.3% of the leaver respondents. There were 11.8% of the completer respondents unemployed with 8.6% seeking employment, while 3.2% were not seeking employment. These percentages compare with 18.7% unemployment for leavers; of which 13.4% were seeking employment and 5.3% were not seeking employment.

Status of Vocational Preparatory Students Surveyed*

*Figure 1 shows the employment status of secondary students approximately one year after program termination (page 6).

*Figure 2 shows similar information for postsecondary students (page 7).

Tables 1, 2, and 3 show the employment status and hourly wage information of students who completed or left education designed to prepare them for employment. These tables are labeled part 1 and part 2 to indicate that each table consists of two pages.

Table 1 breaks this information down by the following occupational areas: agriculture, distributive education, health occupations, occupational home economics, office occupations, technical, trade and industrial, and multi-occupational by sex of student.

Table 2 shows the employment and educational data by program title and taxonomy number.

Table 3 breaks this information down for each secondary school district and merged area school summarized by occupational area.

STUDENT PERCEPTIONS

Table 4 shows vocational education perceptions of former students who completed or left vocational instruction during 1982-83. Specific perceptions were requested concerning "quality of instruction" (whether or not it met expectations), "importance of instruction in obtaining first full-time job," "benefit of instruction in preparing to perform first job and current job after leaving school," and "means of obtaining present job."

Approximately 86.3% of the respondents indicated that their vocational instruction met or exceeded their expectations. For program completers, 88.2% felt that the instruction met or exceeded expectations compared to 80.0% for program leavers. Only 11.8% felt that the instruction fell short of expectations with 2.0% indicating it was totally unsatisfactory. For completers, 10.1% indicated instruction was less than what was expected and 1.7% indicated that the instruction was unsatisfactory. For leavers, 16.9% of the respondents indicated that their instruction fell short of expectations, and 2.9% of that group felt that their instruction was unsatisfactory. As would be expected, leavers were less satisfied with their instruction than were completers.

Similarly, the "importance of vocational instruction in obtaining the first full-time employment upon leaving school" was rated of some to major importance by 67.1% of the respondents while only 17.1% felt it was of little to no importance. Completers tended to be more positive than leavers in this area with 68.1% completers reacting favorably compared to only 63.8% of the leavers while 16.1% of completer respondents reacted unfavorably compared to 20.1% of leaver respondents.

"Preparation of vocational instruction for first full-time job" was judged to be reasonably well to very well by 67.6% of the survey respondents. Only 13.9% felt their preparation was not well or of no value. The substantial difference in views of completers and leavers was maintained on this item as well.

Responses concerning preparation for current "jobs were very similar to responses concerning preparation for first full-time job," but slightly less favorable with 66.3% of the respondents indicating reasonably well to very well compared to 14.9% indicating not well or of no value. These results are consistent with what one would expect considering the possibility of one's current job, not necessarily highly correlating with one's first job in terms of skills, knowledge, and abilities required.

"Means of obtaining the current job" was responded to by the former students with the most frequent response being direct application (or walk-in) by 41.6% of the respondents, followed by parents and family (14.8%), and teachers/vocational education instructors (13.6%). Completers and leavers were similar in their most frequent means of obtaining a job. Both indicated that direct application was the most frequent means of obtaining employment.

EMPLOYER FOLLOW-UP

The following data summarize the responses and nonresponses to the survey according to relevant factors. A total of 406 or 74.4% of the 548 survey questionnaires mailed to 1982-83 vocational program completers and leavers employed in the occupation in which trained or related field were returned at project completion. The first mailing resulted in 37.2% usable returned survey forms. Second mailing yielded an additional 23.4% usable responses and the third mailing added 13.5% to the overall response rate.

Factor	Instructional Level					
	Total		Secondary		Postsecondary	
	Number	Percent	Number	Percent	Number	Percent
Total Surveyed	548	100.0	137	100.0	411	100.0
Total Response	406	74.1	97	70.8	309	75.2
First Mailing	204	37.2	37	27.0	167	40.6
Second Mailing	128	23.4	43	31.4	85	20.7
Third Mailing	74	13.5	17	12.4	57	13.9
Nonrespondents	142	26.2	40	29.2	102	24.8

Table 5 shows various demographic and descriptive characteristics about the former students and their programs for whom employers returned questionnaires. These same characteristics are summarized for employees prepared at secondary schools and merged area schools (page 106).

The following characteristics of employers were identified by the survey:

- (1) About thirty-five (35.5) percent of the responses from employers pertained to male students compared with 64.3 percent for female students.
- (2) Nearly nine out of ten (87.4) of the former students were currently employed. The following data summarize the employment status of this group:

Currently Employed	87.4%
Discharged (Fired)	2.2%
Voluntarily left (Resigned)	6.2%
Not Stated	1.0%

- (3) Almost half (49.0%) of the students found employment with small employers (25 or fewer full-time employees).
- (4) About two out of five students (39.0%) were employed for more than one year by the reporting employer.

Table 6 shows the student program participation by six digit C.I.P. program number and title. This table indicates how the 406 former students of the completers and leavers who responded to the survey are distributed by instructional programs. The area of nursing had 32.5% of the students concentrated within those categories followed by Agriculture/Agribusiness with 13.3% of the employees (page 115).

Figures 3-7 and Table 7, pages 110-111, and 119 shows the percent of the employer responses statewide to questions concerning preparation and current performance of vocationally prepared employees. This information is presented for employees prepared at secondary schools in Table 8, page 121 and those from merged area schools in Table 9, page 123.

In terms of vocational training evaluation, each of three factors was rated in addition to computing an overall rating. For technical knowledge (Figure 3), 81.8% of the responses indicated a very good or good rating, while poor and very poor made up 2.7% of the responses. Responses from 83.2% of the respondent employers categorized work attitudes (Figure 4) as very good or good compared with 2.7% rating work attitudes as poor or very poor. Work quality (Figure 5) was viewed as good to very good according to 83.3% of the responses compared to 2.9% responses indicating poor to very poor. Overall (Figure 6), 82.3% of the responses evaluated training of workers as good compared to 2.9% responses rating overall training as poor to very poor.

In terms of the relative preparation (Figure 7) of vocationally prepared employees with non-vocationally prepared employees in similar positions, 42.4% of the vocationally prepared employees, according to the responses, were considered to be better prepared for similar positions while only 2.5% were considered to be less prepared.

In terms of current performance statewide (Table 7) of vocationally prepared individuals relative to actual job expectations, eleven factors were considered. Vocationally prepared individuals generally were considered to be performing at or above the expected level. The percent of responses indicating the employee performed below expected or satisfactory level ranged from 1.9% for "quality" to 9.2% for "ability to work with minimal supervision."

The results for those employees who were trained in secondary schools are shown in Table 8, page 121, and in Table 9, page 123 for merged area schools. Employees trained in secondary schools and merged schools were rated on preparation for employment including technical knowledge, work attitude, work quality, and overall preparation. Secondary schools were considered favorable ("good" to "very good") in technical knowledge by 79.4% of the ratings. Area schools received 83.5% favorable ratings for this factor. For work attitude, favorable ratings ranged from 82.5% for secondary school trained employees compared to 83.5% for area school trained employees. Work quality rated favorable for 84.5% of secondary school employees with merged area schools receiving 82.9% favorable ratings.

Overall, employees were considered to be prepared from "good" to "very good" by 78.4% of the ratings pertaining to secondary schools and 83.5% of the ratings of merged area schools. In general, both secondary schools and merged area schools received "good" to "very good" ratings on factors contributing to the overall preparation.

For "relative preparation of vocationally trained employees compared to non-vocationally trained employees," ratings concerning employees trained

in secondary schools were categorized better prepared by 42.3% of the responses compared to 42.4% for employees trained in area schools. For secondary schools, 3.1% of the former students were considered less prepared than non-vocationally trained employees compared to 2.3% for merged area school former students.

For "current performance of vocationally trained individuals relative to actual job requirements," the range in percent of responses for employees prepared in the secondary schools under the category of less than satisfactory performance was from 1.0% for several categories to 4.2% for cooperation with co-workers. For merged area school trained employees, the range was from 0.6% for "punctuality" and "attendance" to 2.6% for "ability to work with minimal supervision" and "job skills".

Following the tables described above are more detailed presentations. Table 10, page 125 shows the statewide, secondary, and merged area school vocational training evaluation by demographic and program characteristics (C and D items from the questionnaire, see Appendix D).

Table 11 displays the responses to the evaluation items (C and D), by program taxonomy numbers statewide, in secondary schools and merged area schools.

Instructions for Completing the CE-4S Form
About 1982-83 Postsecondary Completers/Leavers

1. Enter or verify that county, district, school number, and school name are correct on the form.
2. For forms without labels attached or additional forms, complete the taxonomy number of the program that students completed or left during 1982-83. Also provide information concerning instructional level, type of program, special emphasis, and object and purpose. These codes should correspond to those used on the CE-4 form for program approval and reimbursement for FY 1983.

Each time one of these codes changes, use an additional form. If you need more forms or have any questions, contact the Department of Public Instruction (Steve Boal - (515) 281-4730 or Ed Ranney - 281-3893) or zerox from a blank form.
3. For forms without labels attached or additional forms, enter the program name in the space provided.
4. For each student who completed or left the vocational program identified between July 1, 1982 and June 30, 1983 - provide his/her name, address (number, street, city, state, zip code), and telephone number (area code-telephone number) in the spaces as noted in the column headings. Do not report transfers. See glossary.
5. Indicate whether the student completed 100% of the program or less than 100% by placing an 'X' in the appropriate box.
6. Place an 'X' in the appropriate box for sex (M-male, F-female) as well as for race/ethnic category. If this individual is a non-resident alien, omit race and check this box instead.
7. Place an 'X' in the appropriate categories if applicable to the student:
 - a. 'Hand' - Handicapped
 - b. 'LEP' - Limited English Proficiency
 - c. 'Disadv.' - Disadvantaged
 - d. 'Student in CETA' - Comprehensive Employment and Training Act
8. Indicate the type of award of the individual:
 - a. 'Degree' - (e.g., associate or baccalaureate)
 - b. 'Dip or Cert.' - Diploma or certificate
Select either 2 years, 1 to less than 2 years, less than 1 year
 - c. 'No Formal Award' - Neither degree or diploma/certificate
9. Return these forms along with your reimbursement request.

Instructions for Completing the CE-7S Form
About 1982-83 Secondary Completers/Leavers

1. Verify that county, district, school number, and school name are correct on the form.
2. Complete the taxonomy number of the program that students completed or left during 1982-83. Also provide information concerning instructional level, type of program, special emphasis, and object and purpose. These codes should correspond to those used on the CE-4 form for program approval and reimbursement for FY 1983.

Each time one of these codes changes, use an additional form. If you need more forms, contact the Department of Public Instruction or zerox from a blank form.

3. Enter the program name in the space provided.
4. Enter the specific taxonomy numbers listed on the CE-7 for program reimbursement. (Reference is made to those taxonomy numbers provided in boxes 30-39 on the CE-7 form.)
5. For each student who completed or left the identified vocational program between July 1, 1982 and June 30, 1983 - provide his/her name, address, (number, street, city, state, zip code) and telephone number (area code - telephone number.) Do not report transfers. See sheet of definitions.
6. Indicate whether the student completed or left 11th or 12th grade on or before June 30, 1983 by placing an 'X' in the appropriate box.
7. Indicate whether the student completed 100% of the program or less than 100% by placing an 'X' in the appropriate box.
8. Place an 'X' in the appropriate box for sex (M-male, F-female) as well as for race/ethnic category.
9. Place an 'X' in the appropriate categories if applicable to the student (See sheet of definitions):
 - a. 'Hand' - Handicapped
 - b. 'LEP' - Limited English Proficiency
 - c. 'Disadv.' - Disadvantaged
 - d. 'Student in CETA' - Comprehensive Employment and Training Act

Person completing form

Name _____

Telephone No.

DEFINITIONS

Completer

A student who has finished the requirements of a planned sequence of courses, services, or activities designed to meet a vocational objective that teaches entry-level job skills. This person must meet all requirements of the institution for program completion whether or not he or she is graduated from the institution. (100%)

Leaver

A student who was enrolled in and attended a program designed to meet a vocational objective that teaches entry-level job skills and has left the program without finishing the requirements and who is not known to be re-enrolled. (Less than 100%)

Transfer

A student who was enrolled in and attended a program designed to meet a vocational objective that teaches entry-level job skills who is known to have transferred to another institution or who transferred out of the program into an academic or general education program at the same institution. Students who transfer from one vocational program to another within the same school are not considered as transfer students.

Handicapped

Handicapped are those persons that meet the following handicapped categories:

A person who is diagnosed as:

- a. Mentally Retarded
- b. Hard of Hearing
- c. Deaf
- d. Speech Impaired
- e. Visually Handicapped
- f. Emotionally Disturbed
- g. Orthopedically Impaired
- h. Other Health Impaired
- i. Deaf/Blind
- j. Multi-handicapped
- k. Specific Learning Disabilities

All diagnosed handicapped students enrolled in vocational education programs should be reported as handicapped whether or not they are receiving additional special or supportive services to help them succeed.

Disadvantaged

Disadvantaged Persons (other than handicapped) who meet the following:
"Economically disadvantaged" refers to any of the following:

- (1) Family income is at or below national poverty level

Revised Poverty Level Income Levels

<u>Family Size</u>	<u>Income (Non-Farm)</u>	<u>Income (Farm)</u>
1	\$ 3,400	\$ 2,910
2	4,500	3,840
3	5,600	4,770
4	6,700	5,700
5	7,800	6,630
6	8,900	7,560
7	10,000	8,490
8	11,100	9,420
9	12,200	10,350
10	13,300	11,280

- (2) Participant or parent(s) or guardian of the participant is unemployed
- (3) Participant or parent of participant is recipient of public assistance
- (4) Participant is institutionalized or under State guardianship

Operationally, economic disadvantaged can be determined by reporting students who are participating in a free or reduced lunch program, AFDC (Aid to Families of Dependent Children) program or work-study program.

"Academically disadvantaged" refers to persons who:

- (1) Lack reading and writing skills;
- (2) Lack mathematical skills; or
- (3) Perform below grade level.

Operationally, academic disadvantaged can be determined by student enrollment in remedial programs, or student performance at least one grade level on standardized test or student failure of a grade.

Limited English Proficiency

Any member of a national origin minority who does not speak and understand the English language in an instructional setting well enough to benefit from vocational studies to the same extent as a student whose primary language is English. Some examples of national origin minorities are persons of Spanish, Chinese or Italian heritage. The chief administrative official shall determine the method of the staff persons responsible for making the identification.

CETA

Student enrolled in the vocational education program where CETA is reimbursing the educational costs for individual referral students is an ongoing vocational education program.

STATE OF TEXAS
DEPARTMENT OF PUBLIC INSTRUCTION
STUDENT FOLLOW-UP SURVEY

REPORT OF STUDENT FOLLOW-UP SURVEY
The purpose of this survey is to determine the effectiveness of the various programs and services provided by the Department of Public Instruction. The survey is designed to collect information from students, parents, and teachers regarding their satisfaction with the programs and services provided. The results of the survey will be used to make improvements to the programs and services provided by the Department of Public Instruction.

APPENDIX C

Student Follow-up Package

This appendix contains the Student Follow-up Package, which includes the following items:

- 1. Student Follow-up Survey Form
- 2. Student Follow-up Survey Instructions
- 3. Student Follow-up Survey Cover Letter
- 4. Student Follow-up Survey Return Envelope
- 5. Student Follow-up Survey Results Report

The Student Follow-up Survey Form is a questionnaire that asks students to rate their satisfaction with various programs and services provided by the Department of Public Instruction. The Student Follow-up Survey Instructions provide information to students regarding how to complete the survey form. The Student Follow-up Survey Cover Letter is a letter from the Department of Public Instruction to students, explaining the purpose of the survey and how to complete the survey form. The Student Follow-up Survey Return Envelope is a pre-addressed envelope for students to return their completed survey form to. The Student Follow-up Survey Results Report is a report that summarizes the results of the survey.

Dear Former Student

The State of Iowa Department of Public Instruction is conducting a survey of people who were former high school or community college students and received specialized training during the 1982-83 school year. We would like to know your opinions on the quality and usefulness of your training as well as other information which will aid us in assessing the effectiveness of this training. The purpose of this study is to evaluate the strengths and weaknesses of the specialized educational programs offered by Iowa's high schools and community colleges.

We will sincerely appreciate your taking a few minutes to fill out the enclosed questionnaire and return it in the postage-paid envelope.

You may be assured of complete confidentiality. The questionnaire has a gummed label for mailing purposes only. This is so that we can check your name off the mailing list when your questionnaire is returned. Your responses will be combined with those of other former students in summary form only. The reports will never identify individuals.

This study will help to strengthen the educational programs in Iowa, and it has long-term benefits to all Iowans. Your participation is important and will be greatly appreciated.

Thank you in advance for your cooperation.

Sincerely,

Marilyn Engelson

STUDENT FOLLOWUP SURVEY

INSTRUCTIONS: Please read each question carefully. Then respond by checking (✓) one of the answers. In part A, respond only if you are or have been employed, as applicable to each item. If your exact answer is not listed, check the answer that comes closest to it.

All information on this questionnaire will be kept confidential. The gummed label on the middle of the back page contains the name of your program in order to assist you in filling out the questionnaire. The number is for mailing purposes only. We will use it to check your name off the mailing list when your questionnaire is returned.

Please return this questionnaire; a Business Reply form is provided and must be visible when refolding the form. Please seal with cellophane tape to prevent opening during transit.

Thank you for your cooperation.

Enclosed for the employer are the following materials:

- 1. A copy of the student's transcript.
- 2. A copy of the student's diploma.
- 3. A copy of the student's certificate of graduation.
- 4. A copy of the student's letter of recommendation.
- 5. A copy of the student's letter of appreciation.

These materials are being provided to you for your records and for use in your follow-up program.

STATE OF IOWA • DEPARTMENT OF PUBLIC INSTRUCTION

GRIMES STATE OFFICE BUILDING • DES MOINES, IOWA 50319

Iowa
a place to grow

ROBERT D. BENTON, Ed.D., STATE SUPERINTENDENT
David H. Bechtel, M. S., Administrative Assistant
JAMES E. MITCHELL, Ph.D., DEPUTY SUPERINTENDENT

Attention: Manager or Personnel Director

Dear Employer:

The Iowa Department of Public Instruction is conducting the attached survey of employers of persons who received specialized training during the 1982-83 school year.

The purpose of the survey is to evaluate the strengths and weaknesses of the specialized educational programs offered by Iowa's high schools and merged area schools (community colleges). It is not an attempt to evaluate individual workers. The data obtained from the survey are essential for reporting the results of vocational training supported in part by federal funds.

The enclosed form(s) should be completed by the person within your organization who has had the best opportunity to observe the employee designated on each form. A postage-paid return envelope is enclosed for your convenience.

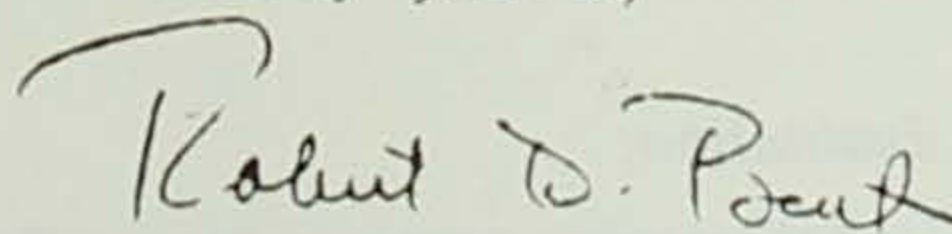

Your responses will be combined with those of several thousand other employers in summary reports. The reports will never identify an individual worker or employer. The results will be grouped according to the type of vocational training program and the school providing the training. For this reason, it is important that the returns be as complete as possible.

This survey will help strengthen the educational programs in Iowa, a potential benefit to all employers and to the state's economic health. Your cooperation is important and will be greatly appreciated.

If a student (employee) is unknown, never worked for you, etc., a response to this effect will be very helpful and will spare both yourself and the survey agency the need for a repeat mailing.

Thank you in advance for your help.

Sincerely yours,

Robert D. Benton, Ed.D.
State Superintendent of
Public Instruction

C. GENERAL REACTIONS—VOCATIONAL EDUCATION INFORMATION:

NOTE: This section is authorized by law (20 USC 2312 and 20 USC 2391). While you are not required to respond to this survey, your cooperation is needed to insure that the results of this effort are comprehensive, reliable, and timely.

1. *Vocational Training Evaluation:*

Please rate the vocational training received by the individual in each of the following three areas: (Circle one letter on each line)

		Very Good	Good	Neutral	Poor	Very Poor
(15)	Technical knowledge	a	b	c	d	e
(16)	Work attitude	a	b	c	d	e
(17)	Work quality	a	b	c	d	e

(18) 2. *Over-all ratings:*

-405-

What is your over-all rating of the vocational training received by this individual as it relates to the requirements of his/her job? (Circle one)

	Very Good	Good	Neutral	Poor	Very Poor
Over-all rating	a	b	c	d	e

(19) 3. *Relative Preparation:*

As a result of this person's vocational training, how would you rate his/her preparation in relation to other employees in his/her work group who did not receive such training? (Check one response)

- (a) ☐ No basis for comparison.
 (b) ☐ Individual is better prepared.
 (c) ☐ Both are about the same.
 (d) ☐ Individual is less prepared.

D. RECENT EVALUATION:

Circle one letter on each line to indicate the level of performance the individual exhibits (or exhibited before termination) for the respective competency or characteristics required by the job.

		Out- standing	Above Expected	Generally Meets Expected	Below Expected	Unsatis- factory	Does Not Apply
(20)	1. <i>Quality of employee's work.</i>	a	b	c	d	e	f
(21)	2. <i>Quantity of employee's work.</i>	a	b	c	d	e	f
(22)	3. <i>Job skills—what worker must do (involves producing, servicing or repairing activities).</i>	a	b	c	d	e	f
(23)	4. <i>Technical knowledge — what worker must know (information necessary to form judgments in doing the work).</i>	a	b	c	d	e	f
(24)	5. <i>Work attendance.</i>	a	b	c	d	e	f
(25)	6. <i>Punctuality.</i>	a	b	c	d	e	f
(26)	7. <i>Compliance with other company policies, rules and practices.</i>	a	b	c	d	e	f
(27)	8. <i>Willingness to accept responsibility.</i>	a	b	c	d	e	f
(28)	9. <i>Ability to work with minimal supervision.</i>	a	b	c	d	e	f
(29)	10. <i>Cooperation with co-workers.</i>	a	b	c	d	e	f
(30)	11. <i>Cooperation with management.</i>	a	b	c	d	e	f
